Innovation Matters

Charting the Path in Energy Advancements at the Water-Energy Nexus

Thursday, 09.21.23

1:00 to 2:30 p.m. PDT

Join us for the next installment of our What Matters Webinar Series, organized by our Water Energy Efficiency Task Force. Delve into the intricate interplay of water and energy, and discover the forefront of energy possibilities for water operations. Featuring experts from leading organizations, this webinar explores innovative solutions and opportunities at the water-energy nexus.
