

Water Urgency Declaration

October 9, 2026

NEED

60%

of Southern California's water resources are uncertain:

- Limiting economic growth
- Minimizing environmental sustainability, and
- Jeopardizing public health

VISION

California water priorities are realized through 2075

GOALS

- 01** Water infrastructure investments move ahead of water needs.
- 02** Regulation supporting efficient water infrastructure delivery and safeguarding environmental protections.
- 03** Diversified water supplies expand to meet need.
- 04** Water remains affordable for families and businesses.
- 05** Innovation and climate resilience are advanced to assure water availability.
