Water Urgency Declaration

October 9, 2026

SOUTHERN CALIFORNIA WATER COALITION

NEED

60%

of Southern California's water resources are uncertain:

- Limiting economic growth
- Minimizing environmental sustainability, and
- Jeopardizing public health

VISION

California water priorities are realized through 2075

GOALS

01 Water infrastructure investments move ahead of water needs.

02 Regulation supports efficient water infrastructure delivery and safeguarding environmental protections.

03 Diversified water supplies expand to meet need.

04 Water remains affordable for families and businesses.

05 Innovation and climate resilience are advanced to assure water availability.

SUPPORTING PATHWAYS

- Solution sets
- Communication and engagement
- Performance management
