

Water Quality Matters Poll Results

SCWC's Water Quality Matters event was held on February 19, 2021. Informal polls were conducted among the 275+ participants during the webinar. The non-scientific results are below.

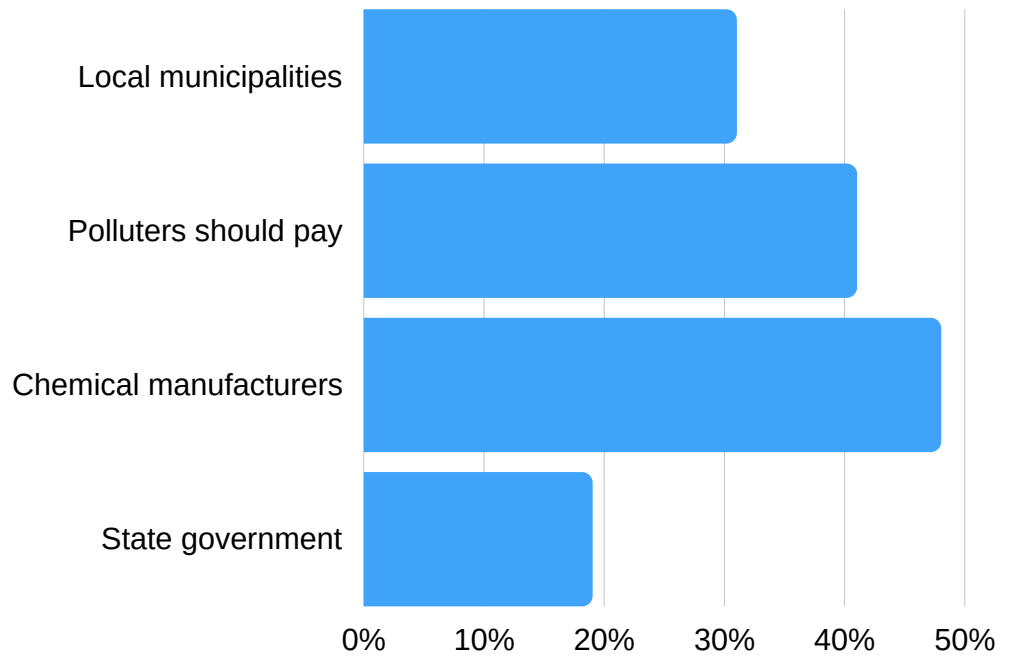

How familiar are you with PFAS?

Do you think PFAS will have an impact on water rates?

Who do you think is responsible for treating or remediating PFAS?

How do you think SCWC can help?
